About the Lawrence Komnick Memorial Scholarship Award

The Lawrence Komnick Memorial Scholarship is named after Local 246 Auto Mechanic Lawrence E. Komnick, who worked in the New York City Police Department, and was killed on the job. He was always willing to help any command, especially the Emergency Service Unit, with keeping their vehicles up and running. His tragic death had a profound impact upon the union, the units that he served, his friends, family, and the Department.

Unfortunately, since that time, the Union has lost many additional active members whose deaths have had just as large an impact on the membership. **Local 246 established the scholarships in his name for Active, dues-paying members' dependent children.**
